

Fashion's Forecast For Spring

is typified in the gala array of BISCHOF Coats and Suits. Such a galaxy of colorings—such exquisite materials and such smart styles—you'll not find their equal anywhere at the price.

Never before has a season ushered in such a variety of modes. We're showing Mannish tailored suits; gracefully rippling Dressy Suits; Norfolk—Sports and Outing suits in the most fetching materials. Every single suit has style, needed in to stay. And the skirts—they're full and rippling, just short enough to make the costume extremely girlish. All the newest materials, in the new colors.

And Our Coats!

You should see them. Every one simply radiates style. There's the full rippling Utility coat, the jaunty new Sports coats, dressy coats in both cloth and silks, and the more conservative coats, in many styles.

Don't miss this showing—the only ones who'll be disappointed are those who do not see it.

FOR the information of the Livingston correspondent the writer wishes to state that the reason why we failed to have a letter in the SIGNAL week before last was that we accompanied one of his democratic friends to the State Republican Convention at Louisville, and after returning home we found that he had gotten so much real enthusiasm from what he had seen and heard that he hesitated to leave him to the mercies of that almost forgotten party, therefore we neglected every thing in a business way that we thought would keep over.

Harvey Green Howard died at his residence Thursday of last week after a few days illness of grip and other troubles incident to old age. His remains were buried at the Baptist church cemetery the following day. Besides his widow, who was a former wife of his son, the late Joe Howard, he is survived by two sons, Charles Howard, of this place, and Lysander Howard, of Louisville. —Attorney and Mrs. E. R. Gentry were here between trains last Friday.—J. H. Ward sold at public sale last Saturday some household effects and other items, and moved his family to the farm he recently purchased near Lebanon, the family leaving Wednesday. We regret to give up Mr. Ward and his estimable family.—Mr. and Mrs. W. P. Rigby were with relatives here a few hours Saturday.—Mr. and Mrs. A. E. Albright were in Cincinnati a few days last week. Mr. Albright was buying goods for his big Main Street store.—Mrs. J. L. Pilkenton was in the city of Mt. Vernon between trains Saturday. Mrs. A. J. Haggard is reported quite sick this week.—Mrs. Allen Hiatt, of Quail, was the guest of her daughter, Mrs. Ben Riddle, here during the week.—Wallace Haggard, who has been attending the Bowling Green Business College, is at home on account of the illness of his mother,

Mrs. A. J. Haggard.—H. H. Reynolds sold his property on East Main street to Uncle Marshall Smith for \$400.—Mrs. J. J. McCall, of Mareburg, was the guest of her daughters, Mrs. B. R. Willmott and Mrs. I. J. Albright, during the week.—The many friends of J. Thos. Cherry here will be glad to know that he was acquitted of a charge brought by one Martha Simpson, in the Lincoln County Court on Thursday of last week, by a jury of the representative men of Stanford and vicinity.—C. C. Howell landed a good job at McRoberts, Ky., and left Tuesday to take charge.—Mrs. A. J. Sargent died at her home in the Hiatt section Saturday night.—Mr. and Mrs. J. M. Roberts were visiting his mother, Mrs. Sallie Roberts, at Gum Sulphur, Sunday.—Clarence Roberts and Elbert King were here during the week from Pennington Gap, Va.—Mrs. Bert Downs and little son, of Louisville, have been visiting the families of C. C. Howell and B. A. Yaden for the past week.—B. T. Young & Co. have established a poultry house here, and are in the market for all kinds of poultry and eggs. They propose to pay out cash for the produce they buy, and will likely run a wagon thru the country to gather up produce from the country merchants.

Mr. and Mrs. R. L. Smith, of Hiatt, were the guests of Mr. and Mrs. A. M. Hiatt, Sunday.—The Rev. Roxie Powell held regular services at the Methodist church here Sunday.—R. L. Smith was in Stanford, Monday.—Miss Mary Proctor is spending the week with her sister, Mrs. Jack McMullins, in the Bromo section.—Mrs. Walter Robins, and little daughter, Inez, were in Mt. Vernon, Sunday and Monday with relatives.—Professors Evans and Keith are in Middlesboro this week taking the examination for a Government position as teachers in the Philippine Islands.—A Spanish boy from Porto Rico will lecture at the Methodist church next Monday evening, subject "What the Catholics have done for my country". A large audience is expected to hear him.—Mrs. Bettie Sharp is quite sick this week.—Dr. and Mrs. W. E. Graveley were in Louisville during the week. The doctor was buying goods for his big Main street store.—S. T. Proctor, of Mt. Vernon, was with his father and other relatives here Tuesday.—The Rev. H. T. Young was in town Monday, taking lessons in real farm life, and makes a good hand too.—Mr. and Mrs. I. F. Carter, who have spent the past six months in Shelby county, returned here Tuesday.—R. L. Smith was in Pine Hill, Wednesday, on business.—Miss Ella Carson was the guest of Miss Clyde Watson at the home of Mr. and Mrs. Fred Durham, in Mt. Vernon, during the week.—W. T. Brooks, Extra Foreman for the L. & N., informs us that the side track at this place will be extended north 1,550 feet. The work is now under way, and that a water crane will also be put in just north of the depot in order to prevent delay of passenger trains. The north bound trains will take water while the passengers are getting off and on. When the side track is completed a hundred cars, two cabooses and two engines can be accommodated. It will require about six weeks to complete the work. We are also informed that the Rockcastle Milling Co. will have a side track put in right away, and that the grading will be begun in the next few days.—Mrs. J. R. Cass is visiting her daughter, Mrs. L. E. Hilton, at Stanford, this week.

COLDS QUICKLY RELIEVED.
Many people cough and cough—from the beginning of Fall right through to spring. Others get cold after cold. Take Dr. King's New Discovery and you will get almost immediate relief. It checks your cold, stops the racking, rasping, tissue-tearing cough, heals the inflammation, soothes the raw tubes. Easy to take, Antiseptic and Healing. Get a 50c bottle of Dr. King's New Discovery and keep it in the house. "It is certainly a great medicine and I keep a bottle of it continually on hand." writes W. C. Jesseman, Franconia, N. H. Money back if not satisfied but nearly always helps.

We did hope that we could get along without a fight, but you can't do nothing with the Mexicans, so as the ball has started rolling, the best thing that Uncle Sam can do is to "mop up" with him before he gets out.

DANGERS OF DRAFT.

Drafts feel best when we are hot and perspiring, just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuralgic Headache will find one or two applications of Sloan's Liniment will give grateful relief. The agonizing pain gives way to a tingling sensation of comfort and warmth and undisturbed rest and sleep is possible. Good for Neuritis too. Price 25c. at your Druggist.

I believe Wesley Watson was born in Culpepper county, Virginia.

Awaiting the favor of your reply, I am,

A dispatch from Lexington in Sunday's Courier Journal says:—Mrs. Mollie F. A special from Frankfort Sunday last says: "Should the Mexican situation call for volunteers among the States, Adj. Gen. J. Fandy Ellis said to night Kentucky would have about 2,400 men from whom to pick. He said the military organization in this state is fairly well officered and the regiments were remarkably full for peace times. Field equipment is what is needed most, should a call be made Gen. Ellis said, none of the members of the Kentucky regiments would be obliged to go to the front, under their enlistment. Volunteers would have to be called for."

The city of St. Louis pays into the Missouri State Treasury more money than is spent in or for the direct benefit of St. Louis by the state government, and some people in St. Louis have complained. Louisville has done the same thing for years in Kentucky and no one is complaining. Of the \$500,000 raised in Louisville under the State school tax, approximately \$220,000 goes to school purposes in poorer counties, and the same principle holds true with the other parts of the State tax. Louisville is glad to make this contribution to the State. The thing it chiefly asks from the State is permission to be left alone in the management of its own affairs in order that the improvement in local government may continue.—Louisville Post.

Come and see the newest thing in dry goods. SUTTON & MCBEE.

I received one-third of the installment of State funds due teachers. So I can only pay each teacher one-third of their March draft at this time. I am sorry this money could not all be paid at once but it appears that we will have to await the legal maturity of the State obligations.

(MRS.) ALICE DAVIS,
County Superintendent.

Hon. E. Bullock has returned from Frankfort, where for the last sixty days he has represented Laurel and Rockcastle counties in the lower branch of the Legislature and did it with credit to his district and honor to himself. It has been several years since this district sent a man to the Legislature, who worked more faithfully, stood better among the other members of the General Assembly and came out with a better or cleaner record, than our own "Tub" Bullock. He voted right on every question.

Mr. and Mrs. Joseph Sampson, of Barboursville, Sunday last, celebrated their sixty-fifth wedding anniversary with a reception at which were present a large number of local people and relatives from neighboring towns. Children present, included Louis D. Sampson, a New York newspaper man; Joseph Sampson, a contractor, of Sioux Falls, N. D.; Judge F. D. Sampson, of the Thirty-fourth judicial district; Mrs. Jones of Lonnnon, and Mrs. F. R. Jarner, of Barboursville. The fifth generation was presented by a little great-great-grand daughter, Miss Jones, of London. Mr. and Mrs. Sampson, aged 93 and 85 respectively, are in the best of health. Mr. Sampson is a retired farmer and a bank director.

IN MEMORY OF MR. LOGAN LONG

On March 6th, just as the early dawn revealed the fresh morning light, the angel of death came and claimed as its victim the devoted husband and father. He had been sick only a short time with that most dread disease, consumption, which takes away many of our godly souls. His suffering was patiently borne. If he had an enemy in the community in which he lived, no one knew it. He was thirty-nine years of age. Besides his loved companion and three little children, he leaves a father, three sisters and one brother to mourn his death. The remains were laid to rest at Providence cemetery, Tuesday at eleven o'clock, to await the call of the last great day. In his death the wife has lost a devoted husband, the children a kind and loving father. We extend to the bereaved much sympathy.

A FRIEND.

TERRY MONT,
March 6, 1916.

To my many friends in Rockcastle county, Ky:

I left Brodhead, Ky., Feb. 16, 1915, 11:30 a. m.; arrived in Terry Mont, 21st, 5:40 p. m., with my family and am now living in this town. I found a homestead of 160 acres in the Powder River Valley, 3 miles west of Terry and 3 1/2 miles south from Blonford depot and filed on it in the branch office here at Terry. I received my papers from the General Land Office of this district, located at Miles City, Feb. 29th. Will say myself and family are all well and well satisfied with our move from Kentucky. The weather has been fine since we have been here. It has been cold but the air is dry, and one does not feel the cold like they do in Kentucky. This is sure a nice country and Terry is a fine town to live in. It is just two years old and the county seat of Prairie county and contains 600 population, the C. M. & St. Paul and the Northern Pacific Railroads cross here, and we have twelve passenger trains a day, six going west and six going east, and one train coming west loaded with emigrants looking for homesteads. The free lands in Montana are being taken up fast and it won't be long till free government land will be a thing of the past. All the necessities of life are cheaper here than they are in Kentucky. Side bacon is 12 cents per pound, hams 15 cents, lard 10 cents, flour \$3.25 per hundred pounds; can goods are just about the same as at Brodhead. I will say to my friends in Rockcastle sign for the signal and keep in close touch with me and I will

There is a Real Difference

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.

CATARRAHAL DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Cure acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All druggists, 75 cts. F. I. CHANEY & CO., Toledo, O.

WHAT IS NEWS?

This question was put to a number of reporters. Here are some of the replies:

"News is anything that the general public ought to know."

"News consists of events that are either very usual or very unusual."

"News is the daily record of the human race put into convenient shape for the public."

"News is the panorama of the world every twenty four hours in embryo."

"News is whatever the public will read and pay for."

"News is anything from Jones' arrival in town or the fall of an empire."

"News is truth concerning men, nations and things. That is truth concerning them which is helpful or pleasant, or useful, or necessary for a reader to know." The last definition was declared to be the best.
